AN UP-TO-DATE STOVE

Do you realize there is no longer any reason why you should use a coal range? Oil is cheaper than coal; it is lighter and easier to handle, and gives an intense heat. Provided you have the right stove, oil is more economical, cleaner and less trouble. Have you seen the

its appearance. You really can't appreciate it until you either use it yourself, or talk to someone who has used it. It does everything that a coal range will do—except heat the room. The New Perfection Oil Cook-Stove will do anything, from heating a kettle of water to cooking a course

dinner, but it won't heat a room. It doesn't "smell," it doesn't smoke. It can't get out of order. Light it and it is ready. Turn it down and it is out. Only a woman who knows the trouble of carrying coal and cooking in a hot kitchen can appreciate what it means to have a clean, perfect stove that will cook anything, boil, bake or roast, and yet won't heat the kitchen. How is it done? The flame is controlled in turuoise-blue enamel chimneys, and directed against the bottom of pot, pan, kettle or oven, and only there. The flame operates exactly where it is needed—and nowhere else. With this stove

your kitchen is cool. your kitchen is cool.

The nickel finish with the bright blue of the chimneys makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

Every dealer everywhere; if not at yours, write for Descriptive Circular to the nearest agency of the

Alexandria Gazette. A MISSISSIPPI

TUESDAY EVENING, JULY 26.

Puzzled the Packer.

The first organized work of women in a relief corps was led by Florence Nightingale in the Crimean war of 1855. So unaccustomed were people to that service at the time that it called out some curious comment. Writing of "Chinese" Gordon, Dr. Butler tells in his book, "Ten Great and Good Men," how the boys at Cambridge met the call upon them for hospital stores. One day a letter came suddenly from the war office telling us that any warm clothes for the invalids at Scutari would be prized by Miss Florence Nightingale. At once in every college a committee was extemporized of leading undergraduates, charged to collect presents of flannel jackets, trousers, "blazers," rugs, greatcoats, furs, even

sealskins. In a few hours box after box was filled with these treasures, and all the boxes were kindly and gratuitously packed for us by the leading upholsterer of the town, his foreman simply remarking to me in a tone which General Gordon would have enjoyed:

"A nice consignment for a lady, sir."

Cause of Twilight.

Twilight is a phenomenon caused by atmospheric refraction. When the sun gets below the horizon we are not immediately plunged into the darkness of night. Although the sun is below our horizon, rays of solar light are bent or refracted by the terrestrial atmosphere and continue to furnish some slight illumination. The process continues with diminishing intensity until the sun is so far below the horizon that the refracting power of the atmosphere is no longer able to bend the rays enough to produce a visible effect. The time after sunset that the sun reaches such a position varies with the latitude of the place. There is less twilight at the tropic zone than at the temperate or frigid zone. This is due to less time taken by the sun's rays to pass through the atmosphere, at the tropic zone the sun's rays being perpendicular and at the temperate and frigid zones oblique .- New York-Amer-

With a Grain of Salt. The earliest record of the saying with a grain of salt" dates back to the year 63 B. C., when the great Pompey entered the palace of Mithridates and the description of an antidote against poisons of all sorts, which was composed of pounded herbs. These, according to the recipe, were to le taken with a grain of salt. Whether this was meant seriously or as a warning sarcasm is not known, but thenceforth it became the custom to say that doubtful preparations should be taken with a grain of salt. From this the meaning got transferred to sayings of doubtful truth. "Attic salt" was a Greek synonym for wit or penetration, sarcasm is not known, but thenceforth Greek synonym for wit or penetration, and the Latin word "sal" had somewhat of the same meaning. It is thus easy to see how the saying "cum grano salis" could have come to mean the necessity of accepting doubtful or suspicious statements "with a grain of

The general idea of the leper settlement on the island of Molokai is merly owned by Thomas Swann, de-merly owned by Thomas Swann, dewrong, says a writer in Harpers Weekly. Instead of the entire island being used for the leper colony the settlement comprises only eight square miles out of a total area of 261 square miles. It occupies a tongue of land on the northern side of Molokal. The north, east and west shores of this tiny spit are washed by the Pacific, while on the south side rise precipitous cliffs of from 1,800 to 4,000 feet, which make the isolation seem even more hopeless than the beautiful deep blue waters of the sea ever could. The most difficult and dangerous trail, constantly manned by government guards, foils escape, if it were ever contemplated, by the land side.

Stupid Husband of a Noted Singer. Catalani's husband, a handsome Frenchman, was even more unintellectual than his wife-he was stupid. Once, having found the pitch of the piano too high, she said after the rehearsal to her husband: "The piano is too high. Will you see that it is made lower before the concert?" When the evening came Catalani was annoyed to find that the plane had not been altered. Her husband sent for the carpenter, who declared that he had sawed off two inches from each leg, as he had been ordered to do. "Surely it can't be too high now, my dear," said the stupid husband soothingly.

Through the Cracks. When the celebrated divine Edward Irving was on a preaching tour in Scotland two Dumfries men of decided opinions went to hear him. When they left the hall one said to the other:

"Well, Willie, what do you think?" "Oh," said the other contemptuously. "the man's cracked!" The first speaker laid a quiet hand

on his shoulder. "Will," said be, "you'll often see a light peeping through a crack."

A Poor Player. Griggs-So you got home from the club at midnight. Well, I suppose you told wife you had to work late at the office. Played upon her sympathies. eh? Briggs-Well-er-yes, but either her sympathies were out of tune or I'm a darned poor instrumentaiist -Boston Transcript.

Good and Sufficient Reason. Editor-But, my good fellow, why do you bring this poem to me? Impecunious One-Well, sir, because I hadn't a stamp, sir.-I.ondon Tatler.

Opportunity seldom comes with a letter of introduction.
